| | | | | | | | | | | | | | | | |
| Notes | | | | | | | | | | | | | | | |
| 2015 | Summering birds listed as 9/1 | | | | | | | | | | | | | | |
| 9/6 | Very hot and humid. This was the week of the visiting Swallow-tailed Kite at Windsor and Mattis. A good start for our fall hikes with a variety of warblers. | | | | | | | | | | | | | | |
| 9/13 | More warblers added. The Sharp-shinned hawk and Merlin were special. I notice that quite a few of the warbler arrival dates are later than last year. | | | | | | | | | | | | | | |
